Create User Stories in Jira

The screenshot shows the Jira 'Create issue' form on the right and the sidebar on the left. A red arrow points from the 'Backlog' item in the sidebar to the 'Create issue' form. The form fields are as follows:

- Project: DealMart (DEAL)
- Issue Type: Story
- Summary: First time visitor can make the payment as a guest user without having to register
- Component/s: None
- Description: As a First-time visitor to the e-commerce website, I want to be able to buy a listed product, So that I can use the product I buy.
- Fix Version/s: None
- Priority: Medium
- Labels: (empty)

At the bottom right of the form, there are buttons for 'Create' and 'Cancel', which are highlighted with a red box.

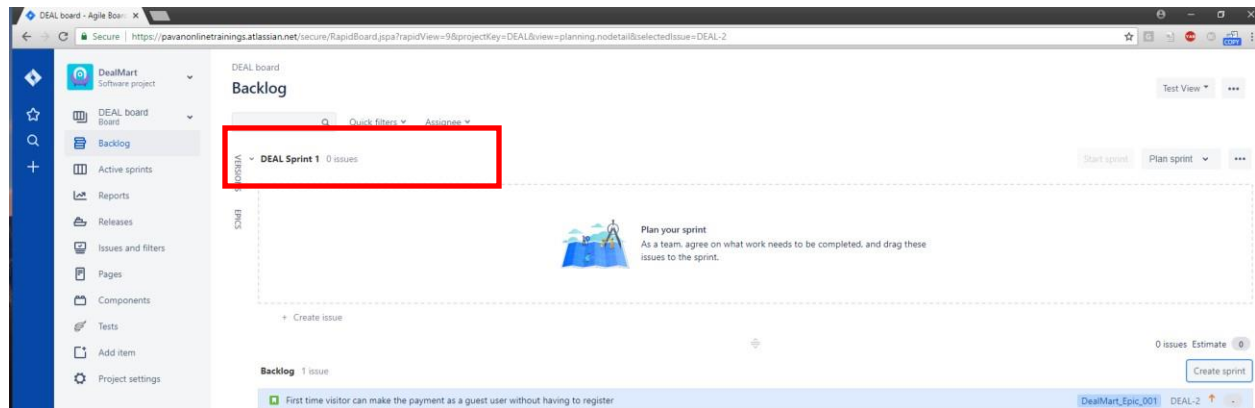

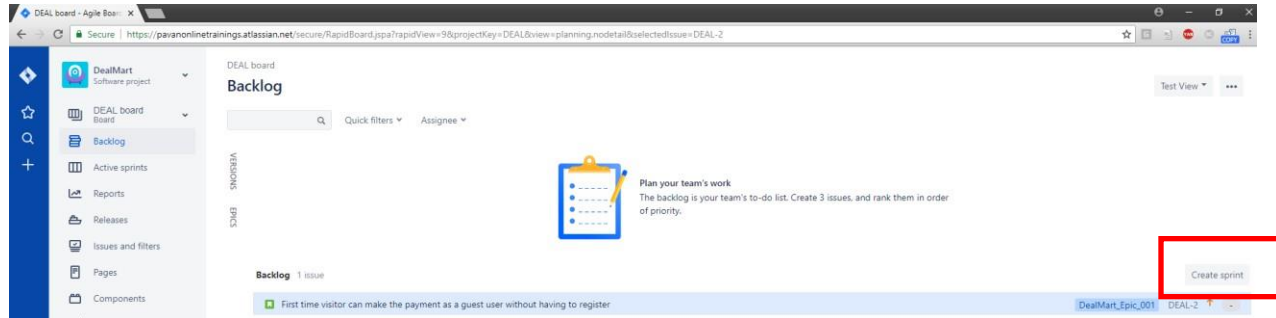

The screenshot shows the Jira 'Backlog' view. The sidebar on the left is the same as in the previous screenshot. The main content area shows the 'Backlog' with a search bar, 'Quick filters', and 'Assignee'. Below this, there is a section titled 'Backlog 1 issue' which contains a single issue card. The issue card is highlighted with a red box and contains the following text:

- Issue Type: Story
- Summary: First time visitor can make the payment as a guest user without having to register

Below the issue card, there is a '+ Create issue' button.
